

Programme

Biogas: Energy throughout the whole world

- 15:30 **Welcome**
Arthur Wellinger, Leader Bioenergy Task 37, Switzerland
- 15:40 **Status of biogas production and application**
Charles Banks, University of Southampton
- 16:05 **Crops for biogas production; yields, suitability and energy balances**
Andrew Salter, University of Southampton
- 16:30 **Optimized growth and preservation of energy crop**
Katja Gödeke, Thüringer National Institute of Agriculture
Monika Heiermann, Leibniz Institute for Agricultural Engineering Bornim
- 16:55 Break
- 17:10 **Performance of 41 representative energy crop digestion plants in Austria**
Rudolf Braun, University of Natural Resources and Applied Life Sciences,
Vienna
- 17:35 **Biogas to fuel: Merits and limits**
Owe Jönsson, Swedish Gas Centre, Malmö
- 18.00 **Final discussion**
Arthur Wellinger
